PROJECT STATUS REPORT

Project Name	Sustainable Product Guide
Project Description	Purpose of this project is to build a mobile application which will allow users to explore eco-friendly skincare products and gain more knowledge relevant to eco-friendly products and their impacts. The goal of this application is to reduce lack of awareness among consumers and contribute towards one of UN sustainable development goals i.e. Responsible Production and Consumption.
For Week Ending	March 31, 2021
Project Status	Green
Status Description	Completed all major task as planned i.e. comments feature and labels screen

Activities—During the Past Week

1. Finished comment feature
2. Finished label screen
3. Finished some GUI changes including bottom nav bar

Activities—Planned for Next Week

1. Eco-logical labels should be added with products
2. Report a spam product
3. User login persistence
4. List feature on profile screen

Project Issues

1. Time management

Project Changes

Might change eliminate rating feature which will not allow user to give rating stars to product

Reflection

- Project is on track, as the major thing missing is eco-logical tags.
- Progress: Resolved Issue with comments

What barriers (if any) do you feel is/are a current impediment to success?
- Lack of time due to other projects and assignments

What help (if any) do you require to move positively forward?

- None

What questions or concerns do you have (if any)?
- None at this time
